

TIME PHARMACEUTICALS

20 Glorious Years of Service

Inspired by Excellence

Company Broucher

G. Narayan Bahadur Chhetri

Message from Chairman & Managing Director

Health is the most invaluable asset and access to quality health services is most deserving rights to every human being. Pharmaceutical services are one of the important parts in health services and in Nepal the pharmaceutical infrastructure is on the developmental phase. Time Pharmaceuticals was founded 20 years ago with a vision to support the national health delivery and pharma insufficiency. Since our establishment we have been continuously evolving and upgrading our company's manufacturing facilities, structure and processes in response to the changes that is taking place in the Pharmaceutical sector globally.

In coming years too we will be more committed and imaginative in building our Industry as a new business model, take required initiatives for creating better business values and morals to contribute the society. We have the responsibility to support the community we live and work in. We commit in achieving these responsibilities while delivering better earnings to stake holders and the employees.

I would like to thank everyone who has been directly or indirectly involved in supporting our efforts to make TIME Pharmaceuticals a name synonymous for quality and trust. It is due to untiring efforts of all Timeans, that we have achieved many valuable milestones in the past. Thank you all once again and I ask for your enduring support as we need to address many challenges ahead in building TIME Pharma and also our pharmaceutical infrastructure in the country.

Sudarshan Lal Shrestha

Message from Deputy Managing Director

20 years is a milestone. This commercial success which we achieved is due to the patronage of our valued customers, trustworthy partners, along with our dedicated team. We believe in progress brought about by hard work and ethical practice. I believe with this principal we will strive to achieve much bigger market share in future with emphasis on Research & Development through technical collaboration with MNC.

Message from Factory Operation Director

Our goal is to improve health care system of the country by developing and delivering advanced pharmaceutical products. We believe that TIME Pharmaceutical's ability to adapt to new changes will provide a true indication of its growth and sustainability in the market place.

Ashesh Bhandary

Message from Finance Director

Profit maximization is the key objective to satisfy the core business expectations. We do believe that optimal capital structure and operational efficiency leads to corporate competitiveness in the dynamic business environment that has added the need of adequate strategic R & D investment for exploiting the business opportunities in the long run."

Manoj Pradhan

ABOUT US

With the vision to provide sustainable solution to the health care challenges and support nation's self sufficiency in medicine, **TIME** Pharmaceuticals was established in October 1995 and it commenced its commercial production and marketing in November 1997. Today, with a leading portfolio of quality products **TIME** Pharmaceuticals is able to gain widespread recognition and establish itself as one of the leading Pharmaceutical Company in Nepal, catering more than 180 products of major therapeutic segments.

TIME is committed to deliver the best of health care services to every individual for a healthier life which has constantly inspired our people to innovate, excel and set our own new standards. With the mission "*Inspired by Excellence*" and bringing together the disciplines of WHO-GMP, ISO 9001:2008 and ISO 14001:2004, our world-class manufacturing unit produces therapeutic products portfolio that matches international class and offers the best services which is required in the better health care delivery system. We are focused towards extending our product portfolio, improving the existing products as well as drug delivery systems and expanding product applications with an appropriate update of latest technologies and upgrading facilities by technical collaboration with the MNC.

MISSION AND VISION

To enrich the fellow citizens by providing quality products and services at affordable price beside exceed customer's expectation at all times with a commitment to consistent quality, innovation, career growth to its employees and sustained returns to its investors.

OUR CORE VALUES

-  Dedication to Quality and Excellence
-  Stable Manufacturing and Sustained Supply Chain
-  Human Safety Management System
-  Internal and External Customer Satisfaction

Factory

MANAGEMENT

The entire operations are fully managed by the dynamic working team of four; headed by Chairman and Managing Director. The Marketing Department is headed by Deputy Managing Director, Corporate office is headed by Finance Director and the Plant is headed by Factory Operation Director. All the operations are professionally managed by the dedicated department under the leadership of qualified heads and highly enthusiastic and motivated staff's.

MANUFACTURING UNIT

Our 35,000 sq. ft. plus ultra modern state of art manufacturing plant is located in Gaidakot-10, Nawalparasi, 12 Km west from Narayanghat. The plant facility and the production process are with compliance of WHO-GMP standard to achieve highest quality product that satisfies the need of the customer. Our plant has successfully integrated multi technology capability to manufacture various types of dosage forms including Capsules/EE Drops/Delayed /Extended/Immediate Release Tablets/Dry Syrup, Creams/Ointments etc. Highly skilled and motivated human resource drives the company with strong passion to build up as one of the leading Pharmaceutical Industry in Nepal.

QUALITY ASSURANCE

TIME Pharmaceuticals applies quality assurance system to organize its activities in such a way that technical, administrative and human factors are well managed and controlled to enhance the quality of its products. All the control activities are oriented towards the reduction, elimination and prevention of probable quality deficiencies. Quality control in TIME Pharma is well defined set of specifications and followed through operations to demonstrate assured quality. The quality which is intended to be offered to customer is achieved through quality by design(QbD). The translation of the customer's

requirements are represented through quality raw materials, quality packing materials, quality process and quality test methods which are resourced by specifications, validated process and methods.

The WHO cGMP, ISO and ICH guidelines are being adopted as the basis for establishing quality system in inventory management, production and the quality control activities. The use of these guidelines has been able to facilitate cooperation within the different functional departments to exchange the information's and experience and harmonization of standards and procedures.

SALES & MARKETING

TIME Pharma has been enjoying its excellent presence in the Nepali pharmaceutical market since 19 years. Our products are well accepted by the Nepalese medical professionals and the consistent growth of the company was only possible through its dedication and commitment towards delivering sustained and enhanced quality products and services to our customers. We at TIME always take top priority in meeting and exceeding our customer's desire and needs to satisfy them. To accomplish this, company has deployed

a strong sales force which makes up a strong distribution network that covers almost every parts of the country. Our Sales team is divided into four major divisions: **TIME, GENESIS, NEXUS & COSMO**. Each division is structured with competent Sales Representative, Area Sales Manager, Regional Sales Managers, Senior Sales Manager, Assistant Country Sales Manager, Deputy General Manager etc. All the sales & marketing activities of four major divisions are supported by highly creative Market Planning Department.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Our policy is to concentrate CSR activities mainly around local communities where our facilities, plants & offices are located. Also, our primarily concentration are to uplift the healthcare standards of our local communities. We organize awareness program, periodical health camps, and medicine donation program enhancing the lives of the people & also we always strive to be responsive to the degrading environment issues. The air pollution of the country has reached to the worst ever and would remain a big challenge to our future generations. TIME Pharma being a responsible corporate citizen has initiated awareness programs of the worst air pollutions problems and works for the solutions. We hope & believe that a small approach from our part would make a big difference and help preserve the environment for future generations.

Let our surrounds remain green and euphoric,

Let the trees bloom and flourish

Let the air we breathe be fresh and pure

Let's act today for a better future

**"Lend Your Hands as a Solution to Minimize Pollution
because Nature PROTECTS if she is PROTECTED"**
